Welcome

At Uniq, it means achieving real business results that allow you to transform, and not just maintain your operations. Our IT services, industries solutions, and outsourcing bring you a level of certainty that no other competitor can match. You ll experience on time completion of requirements not only within budget but also with high quality. High efficiency and responsiveness to business on our part gives you the unique ability to shift investment to strategic initiatives.

We are leaders in software technology, with the most comprehensive range of software solutions for Industries and Schools.

We have CATALYST, which is the sole distributor of INFORTREND Storage Solutions in MALAYSIA. Infortrend is a leading provider of cost-effective, high performance Networked Storage Solutions. Our EonStor RAID subsystems support all storage interfaces including Fibre, iSCSI, SAS, SATA and SCSI. In addition, we also provide Web designing Services.
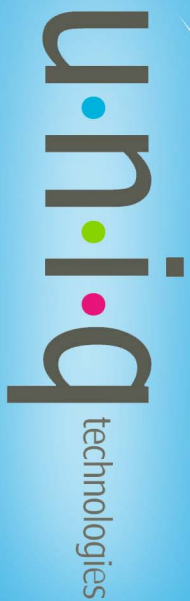

About Us

Uniq technologies is a leading software services company focusing on Consulting, Enterprise Solutions, Internet Applications, IT Services, System Software, Networking and Telecom and Software Testing, Verification and Validation. At Uniq, we combine business and technical knowledge based on the requirements of the client and ensure maximum Customer Satisfaction. Equipped with a team comprising of experienced and dedicated professionals, we go about our tasks adhering to the chosen framework and documentation standards. We also use documented systems to provide full satisfaction on the quality of products.

Our main aim is to provide high quality software that complies to the given specification and deliver it within the stipulated time frame. We also support development lifecycle by providing functional and technical requirements through coding and testing. We are ready to deploy our extensive resources to meet your challenges.

Apart from our evident knowledge, expertise and sheer devotion to our work, what makes us the obvious choice as a information technology outsourcing consultant and provider, is the fact that our solutions go beyond being a mere means to an end. We believe that any solution will be effective only when it perfectly complements existing business strategies, practices, structures and vision. Each project is unique in its requirements and our approach subsequently differs.
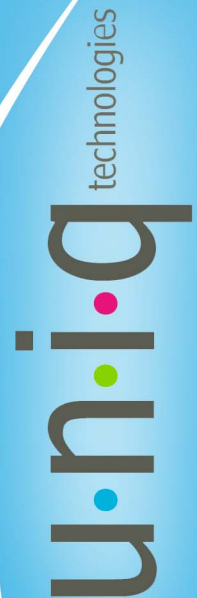

Web Designing

Uniq technologies also specialize in web design and development. That's why we don't just create a good looking website and move on; we work with you to ensure that the websites get outstanding results as we believe that your company deserves nothing but the best.

Whether you want to create a brand strategy, rebuild your image, take your company online (finally!) or market your company to a whole new world online, we can stand by your side and make it happen for you. Contact us today to find out what we can do for your business to lead you on the path to success.

We are pioneers in providing total offshore and local web based solutions for small to large enterprises as well as other web design companies. Solutions that empower SME, large corporate companies or other web solution providers with a distinct competitive advantage that enables one to focus on one's priorities rather than identifying website requirements and do the corresponding programming and development work.

Our Products

Apart from our evident knowledge, expertise and sheer devotion to our work, what makes us the obvious choice as a information technology outsourcing consultant and provider, is the fact that our solutions go beyond being a mere means to an end. We believe that any solution will be effective only when it perfectly complements existing business strategies, practices, structures and vision. Each project is unique in its requirements and our approach subsequently differs.

Uniq technologies specializes in these areas:

1, Custom Application Development

2, .NET/ASP Programming

3, Java Programming

4, Web Application development

In addition we have very strong Graphic and Flash Design and project management skills. All of these together create a high project success rate and ongoing client relationship which are responsible for the strong growth that our company is experiencing.

Solutions

Network Solutions

 uniq technologies offers the industry's leading service-enabling network infrastructure that provides the agility to take advantage of a broad range of service models in order to offer any type of service on any network across any device. uniq technologies's infrastructure extends the range of opportunities, enriches the end-user experience, while reducing the complexity, costs and risks along the way for uniq technologies's service provider, enterprise and public sector customers.

How does it work?

 Network Manager offers unified network management and centralized automation of the complete device lifecycle across uniq technologies's infrastructure of routing, switching and security products. This enables IT departments to improve network performance management efficiency and security while lowering operating costs.

Storage Solutions

We have CATALYST, which is the sole distributor of INFORTREND Storage Solutions in MALAYSIA.

Infortrend is a leading provider of cost-effective, high performance Networked Storage Solutions. Our EonStor RAID subsystems support all storage interfaces including Fibre, iSCSI, SAS, SATA and SCSI.

We also provide Storage Support Services for all makes of storage.
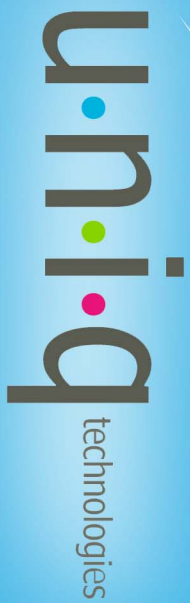

Biometric Attendance

Product Description:

VE 2727 is a widely used Access Control in the office. Choosing a lot of stable original parts, strictly follow the national security product standard. VE 2727 is suitable for the entrances and exits of office, factory, hotel, school, etc. All input /output are using anti-jamming protection and over-voltage/circuit protection. The product experiences the strict degradation test before leaving factory, the greatest advantage of VE 2727 is easy to install, with multifunctional & elegant design and reasonable price.

Benefits

* Adopt high reliable industrial component parts and optical sensor, watchdog monitor to avoid unit hang, unique reset key keeps the unit well work

* Easy to install all the cable connection EM lock installation are the same to the traditional IC/ID Access control

* One-way alarm output :dismantlement alarm , threaten alarm ,unlock illegally alarm , not block alarm
